Dairy Ingredients

## About Us,

Malkara Birlik Sut ve Sut Mamulleri A.S. under the brand name “Maybi”, was founded in Malkara, district of Tekirdag City Turkey, in year 1993. From its foundation to present, Maybi successfully processed raw milk and whey into an industrial and ecological food ingredient. By utilizing the latest technology and Maybi became the supplier of many food manufacturers from various sectors.

Maybi is a family owned company. Founder of the company, Mr. Vural Yazgan, is a mechanical engineer who completed his under-graduate and graduate studies in Germany. Before the foundation of Maybi, he established his dairy machinery company, “Yazgan Makine”, which the company pioneered the development of the dairy industry in Turkey by manufacturing relevant dairy machineries. Today, “Yazgan Makine” still provides turnkey engineering projects such as dairy machineries, cheese process lines and other equipment for the dairy industry.

With the experience in dairy machinery industry Maybi always updates its process with latest technology and provides customized ingredients according to customer needs.

With the experience of more than 25 years in the dairy industry, Maybi is the leader and the first manufacturer of dairy-based powders in Turkey. Maybi continues to expand in the international market as the company’s mission is to grow a successful business model in both domestic and international market.

- Trakya Region European Side of Turkey
- Factory Location Malkara District Tekirdag City

## QUALITY STARTS WITH OUR MILK AND WHEY,

### Milk:

The raw milk that produced in the dairy farms of Trakya Region meets the European Regulations and Standards. In addition, Trakya is the only animal disease free region in Turkey. With the well experienced personnel, Maybi collects the best quality milk to produce premium quality ingredients.

### Whey:

Two main types of cheese are produced in our region: Feta Cheese and Kashkaval Cheese. These two types of cheese are produced by using natural yeast and they are free from any additives (Such as Beta Carotene). All of our whey suppliers are certified by ISO 9001 – ISO 22000 and Halal council.

## BEST SOLUTIONS WITH PREMIUM DAIRY INGREDIENTS,

Maybi offers best solutions for various industries with its best quality ingredients.

### Spray Dried Solutions:

Sweet Whey Powder  
Demin. Whey Powder %40,%50,%70  
Demin. Whey Permeate  
Milkylac 81A  
Whey Protein Concentrate %35

### Customized Products:

As Maybi, it is our duty to offer the best solution possible for our customers needs. Our Premium Whey Powder can be used as a partial replacer for skimmed milk powder. Its protein content can be adjusted to the desired level depending on our customers demand. De-mineralization can be applied depending on the request. Our premium product offers a milky taste and a milky smell thus making it very viable to fully or partially replace milk powder. It is our mission to offer solutions which gives competitive advantage to our customers by improving their manufacturing costs while preserving their quality standards.

## BRINGING QUALITY TO ALL OVER THE WORLD,

Maybi has been exporting dairy powders since early 1990's.

However, after 2000, Maybi has changed its sales policy and began to focus more on international market. This led Maybi to expand its customer profile and enabled to learn the needs of many companies across the globe. This journey allowed Maybi to tailor its products to meet worldwide quality requirements and become a highly known dairy powder manufacturer.

Today, Maybi products are available in Far East, Middle East and African Markets, serving more than 50 countries. Our goal is to build high confidence levels in our customers by maintaining our position as a reliable supplier. We are confident that we can add competitive advantage of our customer's products by means of increasing quality and decreasing costs.

We are very sensitive in our relationships with customers to offer best service level possible. We attend international exhibitions to better understand the needs and dynamics of the market and arrange customer visits regularly to create a satisfactory customer experience.

“We Are Stronger With You”

"Not Maybe, It's MAYBI"
